I have had any number of calls expressing compliments about the feature. I want to thank you most sincerely for your efforts in getting this off the ground and into reality. I'm sure it will bring a lot more notice to our school and hopefully more funding.

Re: Video Tape, Juvenile Fire-  
setters

Dear Ms. Genova:

I have been informed by Lt. David Kruzil of our committee that you have granted permission for the coping of the tape prepared by your T.V. Station on Juvenile Firesetters. First, may I say how much I and the members of the committee appreciate the wonderful and complete work that you and Channel 60 did on this material and second, that this will become a wonderful and extremely useful tool for our statewide network.

I will assure you that this tape will be used by each member of the committee, on a statewide basis, for the sole purpose of training and information. It will be used to inform parent groups, educators, and Police and Fire Service personnel. It will not be used on any form of CABLE T.V. or regular T.V. Your gift to us is to valuable a piece of informational material to misuse.

I want to again thank you for your time and effort on our behalf and would forward to the time when we can again work on a project of such importance.

ATTN: Station Manager

Dear Sir:

I just wanted to drop you a note to tell you how super I think your Channel 66 is and how much we are enjoying the "Home Shopping Club" that you present to us.

It is so much fun to shop at home and to get such bargains as well. With my family, my shopping time is limited, so it is wonderful to be able to shop day or night and right in my own living room.

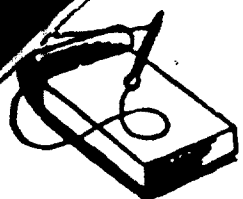

I have purchased several items from the Home Shopping Club and I am more than pleased with all of them. The quality of this merchandise is exceptional and the 18 karat gold is something that is just not available readily here in this area. It is truly beautiful.

Another thing that is worth mentioning. The people on that shopping club are always so cheerful and happy and having such a good time that I find myself being caught up in all that happiness that it exudes to the people in the audience. I feel that I am a happier person because of this and I am so pleased about that. It is what I would call an "added bonus" to all the good buys I am getting.

I have several of my friends watching your Channel 66 and the Home shopping club and they are also becoming "addicted". I work part time in a doctors office and I am spreading the word to our patients that are shut-ins and non-ambulatory so they too can share in the happy atmosphere.

So, Channel 66, our hats are off to you for presenting this  
~~program to us. We are grateful to you and just wanted~~
